CORE SKILLS

Operating Systems

RHEL · Rocky Linux · Ubuntu · CentOS · Windows

Networking

TCP/IP · DNS · DHCP · VLAN · Routing · Firewall · LDAP

Linux Administration

SSH · Systemd · Cron · Patch Mgmt · SSL/TLS · Log Mgmt

Web & Database

Apache · Nginx · MySQL · PostgreSQL

Monitoring

Prometheus · Grafana · Nagios · Zabbix · Kibana · ELK · Rsyslog

Automation

Ansible · Bash · Python · Git

Tools & ITSM

Redmine · Confluence · ITIL Process Knowledge

CERTIFICATIONS

Masters in Network Administration (JK-MNA)

Aug 2022

PROFESSIONAL SUMMARY

Linux Administrator with over 4 years of experience managing enterprise Linux infrastructure, Windows servers, network administration, and IT operations. Experienced administering RHEL, Rocky Linux, and Ubuntu — covering installation, configuration, patch management, user administration, and troubleshooting. Hands-on with Ansible automation, Bash/Python scripting, Apache, Nginx, DNS, DHCP, LDAP, TCP/IP, VLANs, SSL/TLS certificate management, and centralized logging with Rsyslog. Skilled in infrastructure monitoring using Prometheus, Grafana, Nagios, Zabbix, Kibana, and LibreNMS, with a strong focus on Linux security, system hardening, and enterprise operations.

PROFESSIONAL EXPERIENCE

Linux & Network Engineer

Jul 2023 – May 2026

IIIT Hyderabad · Hyderabad

- Administered enterprise Linux (RHEL, Rocky Linux, Ubuntu) and Windows OS, ensuring system availability, performance, and security.
- Automated server configuration, deployment, and patch management using Ansible, improving operational consistency.
- Managed Apache/Nginx web servers and handled SSL/TLS certificate installation, renewal, and troubleshooting.
- Designed centralized logging with Rsyslog across servers, firewalls, and network devices for security monitoring.
- Monitored infrastructure using Prometheus, Grafana, Nagios, Zabbix, and Kibana; resolved performance issues proactively.
- Built and maintained an Oxidized server for automated backup and version control of network device configs.

System & Network Engineer

May 2022 – May 2023

Cache Peripherals Pvt Ltd · Client Site: IIIT Hyderabad

- Installed, configured, and maintained Linux and Windows systems across enterprise environments.
- Diagnosed and resolved hardware, software, and network issues while minimizing downtime.
- Performed preventive maintenance, monitoring, and security patching for system reliability.
- Supported LAN, DNS, DHCP, and switch-related troubleshooting within SLA requirements.

KEY PROJECTS

Oxidized Configuration Backup Server

- Built an Oxidized server from scratch for automated backup and version control of network device configs.
- Integrated Cisco, HP, Aruba, Brocade, and Netgear switches for scheduled config backups.

[Linux](#) · [Oxidized](#) · [LibreNMS](#) · [Git](#) · [SSH](#)

Centralized Logging using Rsyslog

- Implemented a centralized Rsyslog server collecting logs from servers, firewalls, and network devices.
- Integrated log data with Grafana/Kibana dashboards to improve incident investigation.

[Linux](#) · [Rsyslog](#) · [SSH](#)

Linux Server Automation using Ansible

- Developed Ansible playbooks for provisioning, patching, and configuration management.
- Managed reusable roles and inventory groups across enterprise Linux environments.

[Linux](#) · [Ansible](#) · [SSH](#)

Accounts Portal for VPN & Wi-Fi User Provisioning

- Built a secure Django-based Accounts Portal for external VPN and Wi-Fi provisioning.
- Implemented LDAP integration, RBAC, secure auth, and audit logging.

[Linux](#) · [Python](#) · [Django](#) · [PostgreSQL](#) · [LDAP](#) · [Nginx](#)

EDUCATION

PGDCA

Makhanlal Chaturvedi National University of Journalism & Communications — Bhopal
[May 2021](#) – [May 2022](#) · [79%](#)

Masters in Network Administration (Certification Course)

Jetking Infotrain Limited — Hyderabad
[Mar 2021](#) – [Aug 2022](#) · [Grade B](#)

B.Com (Hons.)

Bhavans Vivekananda Degree College — Hyderabad
[May 2017](#) – [May 2020](#) · [66%](#)
